- **Front-End:** HTML, CSS, JavaScript, Bootstrap
- **Back-End:** Java, Spring Boot, Python (Basic)
- **Database:** MySQL, CRUD operations, database integration
- **Tools:** Git, GitHub, MS Office (PGDCA certified)
- **Concepts:** Full stack web development, user authentication, session management, user/admin dashboards, PDF generation
- **Soft Skills:** Problem solving, attention to detail, teamwork, quick learner, written communication

TRAINING

Full Stack Development Training, CTTC, Bhubaneswar Aug 2025 – Feb 2026

- Worked on front-end (HTML, CSS, JavaScript, Bootstrap) and back-end (Java, Spring Boot) development
- Hands-on experience with MySQL databases, Git and GitHub; built web applications from design to database

PROJECTS

Housing Board Property Pre-Booking System

Java, Spring Boot, HTML, CSS, JavaScript, Bootstrap, MySQL

- Built a full stack web application for booking properties online, with secure user login and session management
- Created separate user and admin dashboards to book and manage properties
- Handled data records with CRUD operations and MySQL database integration

Sports Management System

Java, Spring Boot, HTML, CSS, JavaScript, Bootstrap, MySQL

- Built a web application for viewing sports club details and registering online
- Generated PDF receipts as proof of registration
